## Your mental health matters!

Taking care of your mental health is an important part of your overall health and wellness. It is important to remember that the holidays can be a lonely or stressful time. If you are feeling sad, anxious or depressed or you are struggling with substance use, know that you are not alone! We can refer you to resources to help.

Alliance Medi-Cal members can get mental health care through our partner, Beacon Health Options. Beacon will help you:

- Understand your mental health benefits.
- Find mental health providers in your area.
- Help you make an appointment.

- Your primary care provider (PCP) is good at scheduling appointments with a specialist when you need to see one.
- You have enough support from us to help your child lose weight.

You also shared that you are interested in receiving information or help from us on the following topics:

## **COVID-19 vaccine approved for children ages 6 months through 5 years**

COVID-19 continues to impact our families and communities. We have learned that one of the best ways to protect ourselves and our families is to get the COVID-19 vaccine. The COVID-19 vaccine helps lower the risk of a person getting very sick, being hospitalized or dying from COVID-19.

The COVID-19 vaccine is now available for children ages 6 months through 5 years old. Now our youngest family members can be protected.

Children can get vaccinated at their doctor's office, pharmacies or COVID-19 vaccine clinics available in your community. The Alliance recommends calling your child's doctor to request the COVID-19 vaccine so you can also check if your child is up to date on other vaccines and health check-ups. If your child is not able to see the doctor, visit [myturn.ca.gov](https://myturn.ca.gov) to find a walk-in location or schedule an appointment for the COVID-19 vaccine, including family appointments.

You can protect yourself and your loved ones this holiday season by getting your COVID-19 vaccine!

- If your primary care provider thinks you need to see another doctor, they will fill out a Referral Consultation Form.
- If we don't have a referral, we can't pay the bill or claim from the other doctor.

### **Authorized referral**

Our service areas are Merced, Monterey and Santa Cruz counties. If your PCP refers you to a doctor out of our service area, they will need to get approval from the Alliance ahead of time. This is called an authorized referral.

- This means that we need to approve the referral before you can see the other doctor.
- If you are an Alliance In-Home Supportive Services (IHSS) member, you will also need an authorized referral if your primary care provider is referring you to a doctor who doesn't work with the Alliance—even if the doctor is in our service area.

- Alliance members who are enrolled in the California Children’s Services (CCS) Program will also need an authorized referral for specialty care.

## **Prior authorization**

The Alliance must approve some services, procedures, medications and equipment before you get them. This is called prior authorization.

- The provider who is going to perform the service must send us a request to let us know what you need and the reason why.
- If the service, procedure, medication or equipment is medically necessary and a covered benefit, we will approve the request.
- If we deny a request, you will be able to file an appeal if you disagree with our decision.

For a complete list of services that do not need a referral, see your Evidence of Coverage or Member Handbook. The Member Handbook is available to view on our website:
