

GET 2 SHOTS TO WIN THIS FLU SEASON

Your child can win a Health
and Wellness Reward!

Children who get the flu are at risk of health problems, especially if they are under the age of 2.

A flu shot is the best way to protect your child from flu-related illness or, in some cases, death. If your child is between 6 months and 8 years old, they may need two doses of the flu shot.

.....
Children ages 7 to 24 months who get their two flu shot doses between September and May will be entered into a monthly raffle for a **\$100 TARGET GIFT CARD.**

To get your child's flu shot, you will need to make an appointment with his/her doctor. Children and adolescents under age 19 need to get the flu shot at their doctor's office.
