

# PDSA | Plan - Do - Study - Act

Objective for this PDSA Cycle:

- ☐ Develop a change idea
- ☐ Test a change idea
- ☐ Implement a change idea

What question(s) do we want to answer with this PDSA cycle?

## PLAN | answer who, what, where, when

**1) I plan to (who, what, where, when):**

**2) Data collection (who, what, where, when):**

*Refer to the data collection plan.*

**3) I hope this produces (predictions):**

**4) Steps to execute:**

*List tasks necessary to complete the test, who is responsible, and when it is due.*

**DO** | report what happened (data); begin analysis

**What did we observe?**

**STUDY** | complete analysis of data; compare data to predictions and summarize

**What did we learn? Did we meet our measurement goal?**

**ACT** | determine if you are ready to make a change (adopt, adapt, abandon)

**What did we conclude from this cycle?**

**Decide to adopt, adapt, or abandon the idea:**

☐ Adopt: Select changes to implement the idea on a larger scale.

Adapt: Improve the change and continue testing.

Abandon: Discard the idea and try something different.

**Describe the plan for the next cycle:**
