

COVID-19 Vaccine Incentive for Providers and Pharmacists

Please note that these incentives apply to COVID-19 vaccination rates for Medi-Cal members only.

Providers have three different ways to earn incentives for COVID-19 vaccinations:

1. myCalVax or HRSA enrollment incentive

Providers must be enrolled in myCalVax or the Health Resources and Services Administration (HRSA) in order to get doses of the COVID-19 vaccine to distribute to patients. To encourage enrollment, the Alliance is offering primary care providers a \$10,000 one-time incentive to enroll in myCalVax or HRSA on or after Sept. 1, 2021.

2. \$25 per member vaccination

For every member age 5 and over who receives their first dose of a COVID-19 vaccination, the provider administering the vaccine will receive a \$25 incentive payment.

Note: This incentive is based on Alliance members vaccinated between Sept. 1, 2021 and Feb. 28, 2022.

3. Performance-based vaccination incentive

The vaccination rates for members 5 years and older will be calculated by clinic group.

Note: This incentive is based on Alliance members vaccinated between Sept. 1, 2021 and Feb. 28, 2022.

- When a PCP office reaches **70% of eligible members vaccinated, a \$25 incentive will be paid per member who received their first vaccine dose.**
- When a PCP office reaches **85% of eligible members vaccinated, a \$45 incentive will be paid per member who received their first vaccine dose.**
- There are two measurement periods: Sept. 1-Dec. 31, 2021 and Jan. 1- Feb. 28, 2022. The PCP incentive is paid one time for each goal met.

Vaccine incentives for pharmacists

In addition to being reimbursed for the vaccine, pharmacists will be paid \$25 per vaccine dose administered to Alliance members 5 years and older. Incentive calculations will occur in February 2022 for vaccinations delivered between September and December. Payments will be made no later than the end of the third quarter of 2022.

MORE INFORMATION

For more information about how to receive incentive payments, please visit the incentive section of our COVID-19 webpage for providers:
