**Regular Agenda Items:****4. Meeting Expectations in 2025**

Chairperson Espinoza shared the expectation is for all members to feel comfortable to share and to be equally valued and heard.

Vice Chairperson Smith shared updates to the committee charter. The primary change is the creation of voting members and non-voting members. There were no questions or objections to the listed changes.

**5. Pediatric Case Management and California Children's Services (CCS) Overview**

J. Stromsoe provided an overview of the Alliance's pediatric case management team and California Children's Services program.

Alliance staff will see if there is an update on the potential expansion of CCS eligible conditions.

The Alliance monitors metrics for CCS enrollment including the ratio of CCS members to all Alliance members and the percentage is in line with similar health plans. The Alliance also looks at referrals versus denials and if there are ways the Alliance can address the reason for the denial such as provide additional documentation. The Alliance has seen an increase in CCS members in San Benito and Mariposa since the presentation was created.

Children are eligible for CCS until their twenty-first birthday. After their twenty-first birthday, there is no change to their access to case management. The transition process begins when the child is seventeen to help a seamless transition after their twenty-first birthday.

San Benito and Mariposa are Whole Child Model Dependent Counties due to not meeting the population threshold and eligibility is determined by the State. The Alliance is aware of the added complexity of another entity being involved in the process and checks referrals at set time intervals.

Committee member inquired about children who do not have consistent guardians such as children in group homes and foster care. The Alliance acknowledged the question and recommended the conversation be held at another time.

## **6. CCS Advisory Group Representative Report**

K. Riggs, RN, provided updates from the most recent CCS Advisory Group meeting attended by Dr. Myers. Priorities for 2025 include the age out process and updates to the demographics data dashboard. There was discussion around the proposal of increasing the CCS age out age to 26 and around the ECM referral process.

## **7. Updates and Announcements**

Committee member inquired about the authorization process for Enhanced Care Management (ECM) and if there is any special notetaking for CCS children to inform the ECM provider of CCS status to minimize delays. A second committee member shared they are experiencing hardship with the appeals process.

Committee member inquired about resources for financial assistance for eyeglasses with flexible frames as Medi-Cal doesn't cover flexible frames. Another committee member recommended getting an eye exam with the pupillary distance recorded and shopping online retailers.

Committee member inquired about an annual legislative report in the future.

Committee member acknowledged the potential impact on CCS children of the reduction or elimination of mental health programs in schools due to budget cuts.

### **Review Action Items**

K. Zoliniak reviewed the actions items.
